

TRAVEL FORM

Advanced Astronomy Camp

PARENTS: Regardless of how your student will arrive at Astronomy Camp, this form must be received by April 15. Although we can accommodate a few students arriving one day early and/or departing one day late, such arrangements are inconvenient and will necessitate additional cost.

ARRIVAL: The Advanced Camp convenes at 3 pm on Wednesday, June 19, at The University of Arizona's Johnson Alumni Building at 1111 N. Cherry Ave (northwest corner of Speedway and Cherry) near the campus of The University of Arizona in Tucson, Arizona.

Campers arriving by air or Greyhound bus should arrive in Tucson by 2 pm. They will be met by Astronomy Camp personnel and transported to the Alumni building. At Tucson International Airport, Campers will be met at the arriving gate (if necessary) or at the walkway leading to the baggage claim area by a Camp leader holding a sign identifying "Astronomy Camp." After arriving at the Alumni Building, all Campers will phone home at our expense.

DEPARTURE: On the last day (June 26), we will be driving two hours from a remote mountain location to Tucson for our graduation ceremony so students cannot depart on airline flights any earlier than 2:00 pm. After the ceremony, students may go home with their parents/relatives. Astronomy Camp personnel will transport other campers to the airport or bus terminal and will ensure they have actually departed as planned.

STUDENT'S NAME: _____

Parent/guardian (signature): _____

Please select your student's method of transportation and supply the requested details.

If possible, please include **a copy of the complete itinerary**.
